Bruxelles

99.00 Dollar US\$

Our product is a high-purity fine chemical raw material, appearing as light yellow liquid or powder. It features stable chemical properties, low impurity content and excellent solubility. Manufactured under international standards with strict laboratory quality control, the product owns stable batch quality. It is widely used in material synthesis, industrial manufacturing, coating, water treatment and daily chemical industries. We support sample orders, bulk container orders, customized specifications and complete export documents.
